

## Press Release

FOR IMMEDIATE RELEASE:

### **Doug Moreland Releases New Album BRING BACK THE SWING**

*Austin, Texas – August 28, 2015* – Songwriter and artist Doug Moreland releases his 9th album titled *Bring Back The Swing*, available via digital download online, and on disc at his own Cattlelacs Chainsaw Art Gallery and at all Doug Moreland concerts.

Marking his 3rd album captured live inside his woodcarving showroom on the outskirts of Austin, Moreland and his 4 band members reflect their solid dancehall delivery, along with Moreland's charming take on the seriousness of life.

"I love the sound acquired in the simple ways of the past, with a one-time take capturing the heart & soul of the moment," he says. "And the tin ceiling and wood floors of my shop seem to energize a beautiful acoustic. I've even setup my own radio show here where my musical guests remark on the rich sound. Plus, I can do this on a sensible budget!" He built his shop himself in 2003 using reclaimed materials, another example of his love of the quality from an earlier era.

The mix features twin fiddles, mandolin, guitars, drums, and the ever-steady, upright bass fiddle. Doug Moreland's band, *The Flying Armadillos*, consists of Wesley Holtsford, JD Pendley, Timmy Campbell, and Randy Roberts. Engineering by Jomo Edwards, mixing & mastering by Adam Odor.
